Dear Friend of the Tonto

Attached is an update to the Schedule of Proposed Actions for the Tonto National Forest for the period January-March 2004. These projects are planned for environmental analysis and decision. The purpose of this schedule is to give you information regarding the nature and location of proposed projects and their status in the analysis process. You may identify the specific projects in which you are interested.

This will likely be the last schedule you will be receiving in this format. The Forest Service is in the process of converting their schedules to an agency-wide standard. The new schedules will be available on all Forest Service websites. The current schedule is available at www.fs.fed.us/r3/tonto/projects and information on obtaining future schedules will be posted at that site. The Tonto National Forest will no longer routinely mail a schedule to everyone on our Forest-wide mailing list. If you are unable to access the Internet and wish to obtain copies, they will be available at the Tonto National Forest Supervisor's Office and all Ranger District offices; or you may request copies to be sent by mail by writing to:
